

FOLLOW THESE EASY GUIDELINES BEFORE SELLING CIGARETTES, E-CIGARETTES OR TOBACCO PRODUCTS!

- passport;
- driver's license with photo from Texas or another state;
- Texas Identification Card; and
- other ID cards issued by a state or the federal government that display the person's photo, name, address, date of birth, physical description and signature.

1. If they present a Texas driver's license or ID card that has a vertical format (shown below) that says "Provisional Driver License," they are under 18. Do not sell them cigarettes, e-cigarettes or tobacco products.
2. Check to make sure your customer is age 18 or older by verifying his or her date of birth (DOB). For example:
 - In 2015, anyone born in 1997, after today's date, is under 18.
 - In 2016, anyone born in 1998, after today's date, is under 18.
 - In 2017, anyone born in 1999, after today's date, is under 18.
3. Do not rush or feel pressured when checking an ID.
4. Look at the picture and make sure it is the person attempting to buy cigarettes, e-cigarettes or tobacco products. If you doubt the ID is valid, ask for the date of birth, address and/or ZIP code. If the person falters on an answer, ask for another form of ID.
5. If you suspect an ID is not valid or if it has expired, do not sell cigarettes, e-cigarettes or tobacco products to that customer.
